TOTAL		36

Students accepted into the Nursing Program must maintain a “C” or better in each required course.

Failure to complete any of these courses successfully and/or within the allotted semester will result in the student not progressing with their cohort and being held out for the following semester. These courses must be successfully completed as listed in the Practical Nurse Degree curriculum in order to progress in the nursing program. Once accepted into the Nursing Program, a grade of D or F in any course will count as a Nursing Program course failure.
